

## Ixia Global Visibility Solutions Support

### WORLD-CLASS EXPERTISE FOR WORLD-CLASS PERFORMANCE

**Value at the Speed of Business.** Change happens fast in business, and even faster in technology. Ixia solutions for network visibility deliver the end-to-end insight you need to make your applications stronger, your security infrastructure more resilient, and IT operations more efficient.

Making our visibility solutions even more powerful, Ixia's Global Visibility Solutions Support team and tiered support offerings bring customers ongoing value, and peace of mind. For nearly two decades, the world's leading enterprises, service providers and technology manufacturers have relied upon Ixia to help them design, deploy, and defend breakthrough innovations. And so can you.

### IXIA GLOBAL SUPPORT: MAXIMIZE VALUE, MINIMIZE COST, RISK AND DISRUPTIONS

Ixia subject matter experts do more than just support products: we help solve—and prevent—costly problems. Our team partners with yours to make high-impact decisions, optimize investments, and keep critical systems up and running, and up to date.

Leverage Ixia Support to meet fast-changing business challenges—like new security threats, data center complexity, mobility, virtualization, and the pace of change itself. We bring:

- Proven worldwide support and unrivaled “how to” expertise—when and where you need it

**Eliminate** dangerous blind spots with end-to-end visibility into physical, virtual, and SDN networks

- Real-time application and threat intelligence (ATI)
- World-leading experience in network test and security
- Best practices for keeping issues from impacting users, and your business
- Ixia Global Visibility Solutions Support offerings keep your critical systems up and running, and up to date at all times.

## IXIA GLOBAL VISIBILITY SOLUTIONS SUPPORT

Consistently earning customer satisfaction ratings above 95%, the Ixia Global Solution Support team delivers outstanding support backed by deep knowledge and expertise. We're there when you need us, with the know-how needed to maximize ROI and operational efficiency. Highlights of Ixia's Global Visibility Solutions Support include:

- Rapid response and problem resolution
- Technology lifecycle expertise throughout ramp-up, configuration, debugging, and new feature & services roll out
- Full-service hardware repair and rapid interchange of field-replaceable modules
- Recommendation of new releases and features that support changing business needs
- Immediate access to the latest software releases including new features, enhancements, and patches
- Fast, easy online access to Ixia's extensive library of white papers, black books, product documentation, and license management
- Daily software scans for proactive visibility and fix resolution for popular and day-zero Common Vulnerability Exposures
