IxAdmin™ End User Software License Agreement

IMPORTANT — READ CAREFULLY

This IxAdmin™ End User Software License Agreement (this "EULA") is a legal agreement between you, the person or entity that has agreed to pay for the rights granted herein ("Licensee"), and Ixia, a California corporation ("Ixia"). This EULA governs Licensee's possession and use of the Software and the Documentation (each as defined below).

BY CHECKING AND/OR CLICKING "I ACCEPT" OR A SIMILAR BOX OR BUTTON ASSOCIATED WITH THIS EULA AT THE BEGINNING OF THE SOFTWARE DOWNLOAD, INSTALLATION, OR ACTIVATION PROCESS, BY INSTALLING ANY OF THE SOFTWARE, BY ACTIVATING ANY OF THE SOFTWARE WITH ANY ASSOCIATED LICENSE KEY, OR BY USING ANY OF THE SOFTWARE, LICENSEE AGREES TO ALL OF THE TERMS AND CONDITIONS IN THIS EULA. IF LICENSEE DOES NOT AGREE TO ALL OF THE TERMS AND CONDITIONS IN THIS EULA, LICENSEE MUST NOT INSTALL, ACTIVATE, OR USE ANY OF THE SOFTWARE IN ANY WAY, AND LICENSEE MUST NOT CHECK AND/OR CLICK "I ACCEPT" OR ANY SIMILAR BOX OR BUTTON ASSOCIATED WITH THIS EULA DURING THE SOFTWARE DOWNLOAD, INSTALLATION, OR ACTIVATION PROCESS. IF LICENSEE DOES NOT AGREE TO ALL OF THE TERMS AND CONDITIONS IN THIS EULA, LICENSEE MAY RETURN THE UNUSED SOFTWARE FOR A FULL REFUND, PROVIDED THAT LICENSEE'S RIGHT TO RETURN THE UNUSED SOFTWARE FOR A FULL REFUND EXPIRES THIRTY (30) DAYS AFTER PURCHASE OF THE SOFTWARE FROM IXIA OR AN IXIA AUTHORIZED RESELLER OR DISTRIBUTOR, AND APPLIES ONLY IF LICENSEE IS THE ORIGINAL END USER PURCHASER.

1.   DEFINITIONS. As used herein, the following terms shall have the following meanings:

2. LICENSE GRANTS.

2.1. Ixia Software. Subject to all terms and conditions in this EULA, Ixia hereby grants to Licensee a limited, revocable, non-exclusive, non-transferable, non-sublicenseable license to (a) install and use (by one individual at a time) one copy of the Ixia Software, only in object code form, on each Licensee workstation for which Licensee has purchased a license, and (b) make one copy of the Ixia Software and use that copy only for backup and archival purposes.

2.2. Documentation. Subject to all terms and conditions in this EULA, Ixia hereby grants to Licensee a limited, revocable, non-exclusive, non-transferable, non-sublicenseable license to copy and internally use the Documentation to the limited extent reasonably necessary to support Licensee's permissible use of the Software.

2.3. LGPL Software; Linked Ixia Software. Notwithstanding anything in this EULA to the contrary, the LGPL Software is provided to Licensee solely pursuant to the terms and conditions of the LGPL Agreement. Pursuant to Section 6 of the LGPL Agreement, and notwithstanding anything in this EULA to the contrary, Licensee is permitted to: (a) modify the Ixia Software that, as delivered to Licensee, links to the LGPL Software (the "Linked Ixia Software"), solely for Licensee's own internal use; and (b) reverse engineer the Linked Ixia Software for the sole purpose of debugging any modifications to the Linked Ixia Software that are made pursuant to subpart (a) of this Section 2.3. Additionally, pursuant to Section 6 of the LPGL Agreement, Ixia agrees, upon written request from Licensee within three (3) years from the date of Licensee's acceptance of the EULA, to provide Licensee with a copy of the source code for the LGPL Software and a copy of the object code of the Linked Ixia Software for a charge no more than the cost of performing such distribution.

3. OWNERSHIP. Licensee acknowledges and agrees that Ixia and/or its licensors (as applicable) owns and shall retain all rights, title, and interest in and to the Ixia Software and the Documentation, including but not limited to all patents, trademarks, trade names, inventions, copyrights, know-how, trade secrets, and other intellectual and industrial property rights (and any corresponding applications or registrations) related to the Ixia Software or the Documentation. Certain components of the Ixia Software are licensed to Ixia by third parties (the "Third Party Components"). Certain of those third parties, and the terms upon which those third parties have licensed their respective Third Party Components to Ixia, are identified in Appendix 2 attached hereto. Licensee acknowledges and agrees that any software or portion thereof from Developer Express Inc. included in the Ixia Software shall only be used in connection with the Ixia Software and not for any other purpose.

4. RESERVATION OF RIGHTS. Licensee acknowledges and agrees that the Ixia Software and the Documentation have been licensed to Licensee pursuant to the terms and conditions of this EULA, and that the Ixia Software and the Documentation have not been sold to Licensee. Ixia reserves all rights not expressly granted herein. Licensee shall not use or copy the Ixia Software or the Documentation except as is expressly authorized in this EULA. Licensee acknowledges and agrees that the Ixia Software and the Documentation are protected by United States copyright laws and international treaty provisions. Except as otherwise expressly provided herein, Licensee must treat the Ixia Software and the Documentation like any other copyrighted material. Licensee shall not knowingly take any action that would cause the Ixia Software or the Documentation to be placed in the public domain.

5. RESTRICTIONS.

5.1.   Usage Restrictions.   Licensee shall not permit any person other than Licensee's employees and authorized agents to possess or use the Ixia Software or the Documentation, and Licensee shall cause all such employees and authorized agents to abide by all terms and conditions imposed upon Licensee herein (including but not limited to those set forth in Section 6.4 below).

5.2.   No Transfer. Licensee may not, and agrees that it will not, transfer, assign, rent, lease, lend, resell, or in any way distribute or transfer the Ixia Software or the Documentation (or any rights in this EULA, the Ixia Software, or the Documentation) to any third parties, including by operation of law, without Ixia's prior written approval and subject to a written agreement by the recipient to the terms and conditions of this EULA.

5.3.   No Reverse Engineering; No Modification.   To the maximum extent permitted by applicable law, except as otherwise expressly permitted in this EULA, Licensee shall not reverse engineer, decompile, disassemble, or otherwise attempt to discover, reconstruct, or identify the source code for the Ixia Software or any user interface techniques, algorithms, logic, protocols, or specifications included, incorporated, or implemented therein.   Furthermore, to the maximum extent permitted by applicable law, except as otherwise expressly permitted in this EULA or in the Documentation, Licensee shall not modify, port, translate, or create derivative works of the Ixia Software or the Documentation.

5.4.   Proprietary Notices and Legends. If Licensee makes any copies of the Ixia Software or the Documentation in accordance with this EULA, Licensee must reproduce in all such copies all proprietary notices and legends contained in the originals.

5.5.   Updates. Upon Licensee's installation of any Update to the Ixia Software, Licensee shall have no further rights, and Ixia shall have no further obligations, with respect to those portions of the Ixia Software that such Update was intended to replace.

5.6.   License Keys. Licensee acknowledges that installation and/or use of the Ixia Software may be subject to activation by license key. Licensee further acknowledges that Licensee may be required to contact Ixia to transfer the Ixia Software to different Licensee computers.

5.7.   Export Restrictions; Compliance with Laws.   Licensee agrees that Licensee will not, directly or indirectly, export or transmit the Ixia Software or the Documentation to any country or persons to which such export or transmission is restricted by any applicable United States regulation or statute without the prior written consent, if required, of the Bureau of Industry and Security of the United States Department of Commerce or such other governmental entity as may have jurisdiction over such export or transmission.   Licensee agrees to comply with and conform to all applicable laws, regulations, ordinances, and executive orders relating to Licensee's use of the Ixia Software and/or the Documentation.

6.   RESPONSIBILITIES OF LICENSEE.

6.1.   Payment.   In consideration for the licenses and rights granted to Licensee herein, Licensee agrees to pay all amount(s) for such licenses and rights as set forth in the corresponding invoice, in accordance with the payment terms agreed upon by Licensee.

6.2.   Installation and Operation.   As a licensee of the Ixia Software, Licensee is solely responsible for the proper installation and operation of the Ixia Software in accordance with the instructions and specifications set forth in the Documentation.   Ixia shall have no responsibility or liability to Licensee, under the Warranty Agreement or otherwise, for improper installation or operation of the Ixia Software.   Any output or execution errors resulting from improper installation or operation of the Ixia Software shall not be deemed "defects" for

purposes of the Warranty Agreement.

6.3. <u>Indemnification</u>. Licensee hereby agrees to indemnify and hold Ixia harmless from and against any and all claims, losses, or damages (including but not limited to reasonable attorneys' and experts' fees) attributable to (a) Licensee's use or misuse of the Software or the Documentation, or (b) any failure by Licensee to comply with any term, condition, or restriction in this EULA or in the LGPL Agreement.

6.4. <u>Nondisclosure</u>. Licensee acknowledges and agrees that the Ixia Software and the Documentation contain Ixia's valuable trade secrets. Licensee shall not disclose the Ixia Software or the Documentation to any third party other than Licensee's employees and authorized agents.

7. <u>COMPLIANCE AUDIT</u>. Ixia shall have the right, upon reasonable notice, to conduct and/or have an independent accounting firm conduct, during normal business hours on Licensee's premises under Licensee's reasonable supervision, an audit to verify Licensee's compliance with the terms of this EULA.

8. <u>USE OF LICENSEE INFORMATION</u>. With respect to any information Licensee provides to Ixia in connection with the Software or the Documentation, Ixia may use such information for any purpose without restriction, including, without limitation, for product support and development purposes, provided that Ixia will not use such information in a form that identifies Licensee.

9. <u>TERM AND TERMINATION</u>.

9.1. <u>General</u>. Except as provided below with respect to evaluation and limited term licenses, this EULA and the license(s) granted herein will remain effective until terminated. Licensee may terminate this EULA and the licenses granted herein by ceasing all use of the Ixia Software and the Documentation, and returning all copies of the Ixia Software and the Documentation to Ixia. This EULA (including but not limited to the licenses granted to Licensee herein) will automatically terminate if Licensee fails to comply with any term or condition of this EULA.

9.2. <u>Evaluation and Term Licenses</u>. If the Ixia Software and the Documentation have been licensed to Licensee for evaluation purposes, this EULA will be effective only until the end of the designated evaluation period. If the Ixia Software and the Documentation have been licensed to Licensee for a limited term as specified in the applicable invoice or otherwise, then this EULA will be effective only until the end of such term. Ixia Software that is subject to any evaluation or limited term license may contain code that can disable most or all of the features of such software upon expiration of such evaluation or limited term license, and unless Licensee has paid the applicable license fee for any additional licenses, Licensee shall have no rights to use such Ixia Software or the corresponding Documentation upon expiration of any such license.

9.3. <u>Obligations Upon Termination or Expiration</u>. Licensee agrees, upon any termination or expiration of this EULA, to cease use of, and to destroy or return to Ixia, all copies of the Ixia Software and the Documentation. Notwithstanding anything in this EULA to the contrary, Section 1 and Sections 3 through 13 of this EULA shall survive any expiration or termination of this EULA and continue in perpetuity (provided that Ixia's corresponding obligations under the Warranty Agreement, if any, shall not survive any such expiration or termination).

10. <u>LIMITED WARRANTY; DISCLAIMER; LIMITATION OF LIABILITY</u>.

10.1. <u>Limited Warranty</u>. Except with respect to Ixia Software that has been licensed to Licensee for evaluation purposes (which Ixia Software is provided "AS IS"), Ixia provides a limited twelve-month warranty with respect to the Ixia Software, the terms and limitations of

which are set forth in the Warranty Agreement. In the event of any discrepancies or conflicts between the terms and conditions of this EULA and those of the Warranty Agreement, the terms and conditions of this EULA shall govern. Upon expiration of the warranty period specified in the Warranty Agreement, Licensee may purchase extended warranty coverage for the Ixia Software if available, pursuant to the terms on which such warranty coverage is then available. FOR THE AVOIDANCE OF DOUBT, THE LGPL SOFTWARE IS PROVIDED "AS IS" PURSUANT TO SECTION 15 OF THE LGPL AGREEMENT, AND LICENSEE DOES NOT RECEIVE ANY WARRANTY WITH RESPECT TO THE LGPL SOFTWARE UNDER THIS EULA OR THE WARRANTY AGREEMENT.

10.2. Disclaimer. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EXCEPT AS EXPRESSLY SET FORTH IN SECTION 10.1 ABOVE, THE SOFTWARE AND THE DOCUMENTATION ARE PROVIDED "AS IS", AND IXIA AND ITS SUPPLIERS AND LICENSORS DO NOT MAKE AND SPECIFICALLY DISCLAIM ALL EXPRESS AND IMPLIED WARRANTIES OF EVERY KIND RELATING TO THE SOFTWARE, THE DOCUMENTATION, AND/OR USE OF THE SOFTWARE OR THE DOCUMENTATION (INCLUDING, WITHOUT LIMITATION, ACTUAL AND IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT), AS WELL AS ANY WARRANTIES THAT THE SOFTWARE OR THE DOCUMENTATION (OR ANY ELEMENTS OF EITHER) WILL ACHIEVE A PARTICULAR RESULT, OR WILL BE UNINTERRUPTED OR ERROR-FREE.

10.3. Limitation of Liability. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, IN NO EVENT SHALL IXIA OR ITS SUPPLIERS OR LICENSORS BE LIABLE UNDER ANY THEORY OF LIABILITY FOR ANY CONSEQUENTIAL, INDIRECT, INCIDENTAL, SPECIAL, PUNITIVE, OR EXEMPLARY DAMAGES OF ANY KIND (INCLUDING, WITHOUT LIMITATION, DAMAGES ARISING FROM LOSS OF PROFITS, REVENUE, DATA, OR USE, OR FROM INTERRUPTED COMMUNICATIONS OR DAMAGED DATA, OR FROM ANY DEFECT OR ERROR, OR IN CONNECTION WITH LICENSEE'S ACQUISITION OF SUBSTITUTE GOODS OR SERVICES OR MALFUNCTION OF THE SOFTWARE, OR ANY SUCH DAMAGES ARISING FROM BREACH OF CONTRACT OR WARRANTY OR FROM NEGLIGENCE OR STRICT LIABILITY) IN CONNECTION WITH THIS EULA, THE SOFTWARE, THE DOCUMENTATION, AND/OR ANY USE OF THE SOFTWARE OR THE DOCUMENTATION, EVEN IF IXIA OR ANY OF ITS SUPPLIERS OR LICENSORS OR ANY OTHER PERSON HAS BEEN ADVISED OR SHOULD KNOW OF THE POSSIBILITY OF SUCH DAMAGES, AND NOTWITHSTANDING THE FAILURE OF ANY REMEDY TO ACHIEVE ITS INTENDED PURPOSE. WITHOUT LIMITING THE FOREGOING, IXIA'S MAXIMUM AGGREGATE LIABILITY IN CONNECTION WITH THIS EULA, THE SOFTWARE, THE DOCUMENTATION, AND/OR USE OF THE SOFTWARE OR THE DOCUMENTATION SHALL NOT EXCEED THE TOTAL AMOUNT OF ANY LICENSE FEES AND/OR MAINTENANCE FEES PAID BY LICENSEE IN CONNECTION WITH THE SOFTWARE.

11. U.S. GOVERNMENT RESTRICTED RIGHTS.

11.1. Commercial Software. The Ixia Software and the Documentation are deemed to be "commercial computer software" and "commercial computer software documentation," respectively, for purposes of Federal Acquisition Regulations ("FAR") 12.212 and the Defense FAR Supplement ("DFARS") 227.7202-1, 227.7202-3, and 227.7202-4, and the restrictions set forth in such regulations, and this EULA shall be deemed to be the license described in such regulations. Any use, modification, reproduction, release, performance, display, or disclosure of the Ixia Software or the Documentation by any agency, department, or entity of the United States Government (the "Government") shall be governed solely by the terms of this EULA and is prohibited except to the extent expressly permitted by the terms of this EULA. The Ixia Software and the Documentation are also deemed to be "restricted computer software" for purposes of FAR 52.227-14(g)(3) (*Alternate III (June 1987)*) and FAR 52.227-19, which clauses are incorporated herein by reference subject to the express restrictions and

prohibitions set forth above.

11.2.   Certain Technical Data. Any technical data provided by Ixia in connection with the Ixia Software or the Documentation that is not covered by the above provisions is deemed to be "technical information related to commercial computer software or commercial computer software documentation" for purposes of FAR 12.212 and the restrictions set forth therein, and is deemed to be "technical data or information related or pertaining to commercial items or processes" developed at private expense for purposes of DFARS 227.7102-1 and 227.7102-2 and the restrictions set forth therein, and this EULA shall be deemed to be the license described in such regulations. Any use, modification, reproduction, release, performance, display, or disclosure of such technical data by the Government shall be governed solely by the terms of this EULA and is prohibited except to the extent expressly permitted by the terms of this EULA. Such technical data is also deemed to be "limited rights data" as defined in FAR 52.227-14(a) (*Alternate I (June 1987*)) and for purposes of FAR 52.227-14(g)(2) (*Alternate II (June 1987)*), which clauses are incorporated herein by reference subject to the express restrictions and prohibitions set forth above. Such technical data shall also be deemed to be "technical data" for purposes of DFARS 252.227-7015, which clause is incorporated herein by reference subject to the express restrictions and prohibitions set forth above.

11.3.   Third Party Acceptance of Restrictions. Licensee shall not provide the Ixia Software, the Documentation, or the technical data described in Section 11.2 above to any party, including the Government, unless such third party accepts the same restrictions as are set forth in this Section 11. Licensee is responsible for ensuring that the proper notice is given to all such third parties and that the Ixia Software, the Documentation, and such technical data is properly marked with the required legends. Nothing in this Section 11.3 shall be deemed to modify the restrictions on transfer or disclosure set forth elsewhere in this EULA.

12.   GOVERNING LAW; ENFORCEMENT.

12.1.   Governing Law. This EULA and the rights and obligations of the parties hereunder shall be governed by the laws of the State of California, without reference to conflicts of laws principles; provided, however, that if the Ixia Software and the Documentation is licensed outside the United States, then certain local laws may apply. The parties agree to the non-exclusive jurisdiction of the state and federal courts in Los Angeles County, California in connection with the litigation of any dispute pertaining to this EULA and waive any objection to such jurisdiction based on venue or personal jurisdiction. IN ADDITION, THIS EULA WILL NOT BE GOVERNED OR INTERPRETED IN ANY WAY BY REFERRING TO ANY LAW BASED ON THE UNIFORM COMPUTER INFORMATION TRANSACTIONS ACT (UCITA), EVEN IF THAT LAW HAS BEEN ADOPTED IN CALIFORNIA, AND THE UNITED NATIONS CONVENTION ON CONTRACTS FOR THE INTERNATIONAL SALE OF GOODS IS HEREBY EXCLUDED.

12.2.   Equitable Relief. Licensee acknowledges that any actual or threatened breach of the provisions of this EULA will constitute immediate, irreparable harm to Ixia for which monetary damages would be an inadequate remedy; that injunctive relief is an appropriate remedy for any such breach or threatened breach; and that, in such event, Ixia will be entitled to immediate injunctive relief without the requirement of posting bond.

13.   MISCELLANEOUS. This EULA and the Warranty Agreement set forth the entire agreement between Ixia and Licensee with respect to the Ixia Software, the Documentation, and/or Licensee's use of the Ixia Software and the Documentation. It is expressly agreed that the terms of this EULA will supersede the terms in any of Licensee's purchase orders or other ordering documents. No provision of this EULA or of the Warranty Agreement may be waived, modified, or superseded except by a written instrument signed by each of Ixia and Licensee.
No failure or delay in exercising any right or remedy shall operate as a waiver of any such (or any other) right or remedy. The language of this EULA shall be construed as a whole, according to its fair meaning and intent, and not strictly for or against either party, regardless of who drafted or was principally responsible for drafting this EULA or any specific term or condition hereof. This EULA shall bind and inure to the benefit of the parties and their permitted successors and permitted assigns. Both parties are acting as independent contractors with respect to the activities hereunder. In the event of any legal proceeding between the parties arising out of or related to this EULA, the prevailing party shall be entitled to recover, in addition to any other relief awarded or granted, its costs and expenses (including but not limited to reasonable attorneys' and expert witness' fees) incurred in any such proceeding. If any provision in this EULA is invalid or unenforceable, such provision shall be construed, limited, or altered, as necessary, to eliminate the invalidity or unenforceability and all other provisions of this EULA shall remain in effect.

Licensee should print (by selecting the print option during installation or download of the Software, or by viewing and printing the EULA from Ixia's web site at www.ixiacom.com/support/terms_and_conditions) and save a copy of this EULA for Licensee's records.

Should Licensee have any questions concerning this EULA, or if Licensee desires to contact Ixia for any reason, please write Ixia at 26601 W. Agoura Road, Calabasas, California 91302, USA, or send an email to Ixia at support@ixiacom.com.

APPENDIX 1

GNU LESSER GENERAL PUBLIC LICENSE
Version 2.1, February 1999

Copyright (C) 1991, 1999 Free Software Foundation, Inc.
51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA
Everyone is permitted to copy and distribute verbatim copies of this license document, but changing it is not allowed.

[This is the first released version of the Lesser GPL. It also counts as the successor of the GNU Library Public License, version 2, hence the version number 2.1.]

Preamble

The licenses for most software are designed to take away your freedom to share and change it. By contrast, the GNU General Public Licenses are intended to guarantee your freedom to share and change free software--to make sure the software is free for all its users.

This license, the Lesser General Public License, applies to some specially designated software packages--typically libraries--of the Free Software Foundation and other authors who decide to use it. You can use it too, but we suggest you first think carefully about whether this license or the ordinary General Public License is the better strategy to use in any particular case, based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price. Our General Public Licenses are designed to make sure that you have the freedom to distribute copies of free software (and charge for this service if you wish); that you receive source code or can get it if you want it; that you can change the software and use pieces of it in new free programs; and that you are informed that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to deny you these rights or to ask you to surrender these rights. These restrictions translate to certain responsibilities for you if you distribute copies of the library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a fee, you must give the recipients all the rights that we gave you. You must make sure that they, too, receive or can get the source code. If you link other code with the library, you must provide complete object files to the recipients, so that they can relink them with the library after making changes to the library and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and (2) we offer you this license, which gives you legal permission to copy, distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no warranty for the free library. Also, if the library is modified by someone else and passed on, the recipients should know that what they have is not the original version, so that the original author's reputation will not be affected by problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free program. We wish to make sure that a company cannot effectively restrict the users of a free program by obtaining a restrictive license from a patent holder. Therefore, we insist that any patent license obtained for a version of the library must be consistent with the full freedom of use specified in this

license.

Most GNU software, including some libraries, is covered by the ordinary GNU General Public License. This license, the GNU Lesser General Public License, applies to certain designated libraries, and is quite different from the ordinary General Public License. We use this license for certain libraries in order to permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared library, the combination of the two is legally speaking a combined work, a derivative of the original library. The ordinary General Public License therefore permits such linking only if the entire combination fits its criteria of freedom. The Lesser General Public License permits more lax criteria for linking other code with the library.

We call this license the "Lesser" General Public License because it does Less to protect the user's freedom than the ordinary General Public License. It also provides other free software developers Less of an advantage over competing non-free programs. These disadvantages are the reason we use the ordinary General Public License for many libraries. However, the Lesser license provides advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

GNU LESSER GENERAL PUBLIC LICENSE
TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language.

(Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

a) The modified work must itself be a software library.

b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

(For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

a) Accompany the work with the complete corresponding machine-readable source code for the Library including whatever changes were used in the work (which must be distributed under Sections 1 and 2 above); and, if the work is an executable linked with the Library, with the complete machine-readable "work that uses the Library", as object code and/or source code, so that the user can modify the Library and then relink to produce a modified executable containing the modified Library. (It is understood that the user who changes the contents of definitions files in the Library will not necessarily be able to recompile the application to use the modified definitions.)

b) Use a suitable shared library mechanism for linking with the Library. A suitable mechanism is one that (1) uses at run time a copy of the library already present on the user's computer system, rather than copying library functions into the executable, and (2) will operate properly with a modified version of the library, if the user installs one, as long as the modified version is interface-compatible with the version that the work was made with.

c) Accompany the work with a written offer, valid for at least three years, to give the same user the materials specified in Subsection 6a, above, for a charge no more than the cost of performing this distribution.

d) If distribution of the work is made by offering access to copy from a designated place, offer equivalent access to copy the above specified materials from the same place.

e) Verify that the user has already received a copy of these materials or that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must include any data and utility programs needed for reproducing the executable from it. However, as a special exception, the materials to be distributed need not include anything that is normally distributed (in either source or binary form) with the major components (compiler, kernel, and so on) of the operating system on which the executable runs, unless that component itself accompanies the executable.

It may happen that this requirement contradicts the license restrictions of other proprietary libraries that do not normally accompany the operating system. Such a contradiction means you cannot use both them and the Library together in an executable that you distribute.

7. You may place library facilities that are a work based on the Library side-by-side in a single library together with other library facilities not covered by this License, and distribute such a combined library, provided that the separate distribution of the work based on the Library and of the other library facilities is otherwise permitted, and provided that you do these two things:

a) Accompany the combined library with a copy of the same work based on the Library, uncombined with any other library facilities. This must be distributed under the terms of the Sections above.

b) Give prominent notice with the combined library of the fact that part of it is a work based on the Library, and explaining where to find the accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library except as expressly provided under this License. Any attempt otherwise to copy, modify, sublicense, link with, or distribute the Library is void, and will automatically terminate your rights under this License. However, parties who have received copies, or rights, from you under this License will not have their licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it. However, nothing else grants you permission to modify or distribute the Library or its derivative works. These actions are prohibited by law if you do not accept this License. Therefore, by modifying or distributing the Library (or any work based on the Library), you indicate your acceptance of this License to do so, and all its terms and conditions for copying, distributing or modifying the Library or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of

following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).
To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

<one line to give the library's name and a brief idea of what it does.>
Copyright (C) <year> <name of author>

This library is free software; you can redistribute it and/or modify it under the terms of the GNU Lesser General Public License as published by the Free Software Foundation; either version2.1 of the License, or (at your option) any later version.

This library is distributed in the hope that it will be useful, but WITHOUT ANY WARRANTY; without even the implied warranty of MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU Lesser General Public License for more details.

You should have received a copy of the GNU Lesser General Public License along with this library; if not, write to the Free Software Foundation, Inc., 51 Franklin Street, Fifth Floor, Boston, MA 02110-1301 USA

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your school, if any, to sign a "copyright disclaimer" for the library, if necessary. Here is a sample; alter the names:

Yoyodyne, Inc., hereby disclaims all copyright interest in the library `Frob' (a library for tweaking knobs) written by James Random Hacker.

APPENDIX 2

Third Party Components

1.   Log4net

Apache License
Version 2.0, January 2004

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain

separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

    (a) You must give any other recipients of the Work or Derivative Works a copy of this License; and

    (b) You must cause any modified files to carry prominent notices stating that You changed the files; and

(c) You must retain, in the Source form of any Derivative Works that You distribute, all copyright, patent, trademark, and attribution notices from the Source form of the Work, excluding those notices that do not pertain to any part of the Derivative Works; and

(d) If the Work includes a "NOTICE" text file as part of its distribution, then any Derivative Works that You distribute must include a readable copy of the attribution notices contained within such NOTICE file, excluding those notices that do not pertain to any part of the Derivative Works, in at least one of the following places: within a NOTICE text file distributed as part of the Derivative Works; within the Source form or documentation, if provided along with the Derivative Works; or, within a display generated by the Derivative Works, if and wherever such third-party notices normally appear. The contents of the NOTICE file are for informational purposes only and do not modify the License. You may add Your own attribution notices within Derivative Works that You distribute, alongside or as an addendum to the NOTICE text from the Work, provided that such additional attribution notices cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide additional or different license terms and conditions for use, reproduction, or distribution of Your modifications, or for any such Derivative Works as a whole, provided Your use, reproduction, and distribution of the Work otherwise complies with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any Contribution intentionally submitted for inclusion in the Work by You to the Licensor shall be under the terms and conditions of this License, without any additional terms or conditions. Notwithstanding the above, nothing herein shall supersede or modify the terms of any separate license agreement you may have executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names, trademarks, service marks, or product names of the Licensor, except as required for reasonable and customary use in describing the origin of the Work and reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in writing, Licensor provides the Work (and each Contributor provides its Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND, either express or implied, including, without limitation, any warranties or conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A PARTICULAR PURPOSE. You are solely responsible for determining the appropriateness of using or redistributing the Work and assume any risks associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in tort (including negligence), contract, or otherwise, unless required by

applicable law (such as deliberate and grossly negligent acts) or agreed to in writing, shall any Contributor be liable to You for damages, including any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or out of the use or inability to use the Work (including but not limited to damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), even if such Contributor has been advised of the possibility of such damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or Derivative Works thereof, You may choose to offer, and charge a fee for, acceptance of support, warranty, indemnity, or other liability obligations and/or rights consistent with this License. However, in accepting such obligations, You may act only on Your own behalf and on Your sole responsibility, not on behalf of any other Contributor, and only if You agree to indemnify, defend, and hold each Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work.

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.
